Dimensions

1202mm/99mm/52mm

PENDAR P 1200 Pendant luminaire, L 1202mm, B 99mm, H 52mm, 3000K, 37W, 4394 lm, direct 63% indirect 37%, dimmable DALI interface

The PENDAR is a slim pendulum lamp with a fine shape. It is available in two different lengths. The control unit is integrated with the DALI interface in the luminaire body. The light of the highly efficient LED modules is scattered at the structure screen. The result is a glare-free, harmonious light. As a variant the PENDAR with raster and / or sensor is available both as a pendulum lamp and as a ceiling light with a fixed connection. The light colors are available in 3000K and 4000 K. With a choice of different wattages from 30W to 80W with an energy efficiency up to 9784lm are achieved.
